Ajax-Pickering Board of Trade: Social Distance Marketing- Building Awareness When Your Customers are In Crisis

Date and Time: Wednesday, April 8 1:00 pm - 2:00 pm

Address: Webinar

Tough times don't last – tough people do! I'm sure you don't want to be seen as indifferent, insensitive, or self-absorb by continuing your marketing during this crisis. If you push forward will you offend people and damage your reputation?

The answer is no... if you do it the right way.

This is not the time to cut back on your marketing efforts, in fact you should be spending this time working on adding value to your prospects and customers, not disappearing from their radar.

If you "Go Dark" during the next few weeks or months you may never recover.

According to research from the Harvard Business Review, companies that master the delicate balance between cutting costs to survive today and investing to grow tomorrow do well after a recession. It goes on to say they bounce back faster, increase market share and are stronger.

What's the Answer? You must deliver valuable information that can help your customers and establish you as an industry leader.

This Social Distance Marketing Brief will focus on:

- How email and LinkedIn can build your brand authority
- How you can establish yourself as a thought leader
- The importance of communicating valuable "industry insights"
- How to connect and communicate with being salesy or pushy
- A 5-step model to connect, engage and nurture potential new customers

Our goal is for you to emerge from this crisis with a stronger influence and accelerated sales growth.

Clients that use this framework regularly experience 20-30% response rate to their emails and LinkedIn message resulting in potential customers contacting them directly for more information. Since Covid-19 hit we are seeing higher numbers as more people are spending their time looking for new ideas and insights.

Ajax-Pickering Board of Trade - What do you do when challenging times challenge you?

Date and Time: Tuesday, April 21 10:00 am - 11:00 am

Address: Webinar

It is hardships like this when everyone learns what it truly means to turn unexpected challenges into unprecedented opportunities. Learn how to lead with hope during this time of global crisis as well as learn to understand fear, see the big picture, and overcome challenges.

- You will learn how to better make decisions as you lead through adversity.
- You will learn how to place fear in the right context and communicate your belief that better days are ahead.
- You will learn to strengthen your relationships and how to talk about the virus with your children, your spouse, your employees, your community and give them hope!

In the training I will define what a crisis is and how common they really are. There are never two good consecutive days in a leader's life, which means that leaders, well everyone really, should be used to rough times.

I'll cover some of the ways to help keep the main thing the main thing. Whether it's the breaking news alerts on the evening news, or a panicked report from the Stock Market, there are plenty of things that pull our attention away from the issue at hand. And finally that we can learn to shift for the better, even in the midst of crisis. How with the right perspective we can turn adversity into advantage.

Address: Whitby Courthouse Theatre - Whitby Centennial Building, 416 Centre Street South, Whitby

At 35-years old, Robert has the mental capacities of an 8-year old, but that doesn't make him any less wise in the ways of the world. Holly is pregnant, alone and simply needs the right break.

A story about people finding the nerve to take responsibility, and persevering against the odds.

Uplifting, poignant and funny, Kiss The Moon, Kiss The Sun will capture your heart and possibly change the way you view people forever. "Before this glorious life is done, I shall kiss the moon and kiss the sun. It's about trying to get the most out of life, but Robert and I have a different meaning for it. I'm the moon that watches over him at night, and he's the sun who brightens up my days." - Norm Foster

Sunday Speaker Series: Author Ellin Bessner

Date and Time: Sunday, April 26 1:00 pm - 3:00 pm

Address: 16210 Island Rd

As the world commemorates the 75th anniversary of the end of World War Two, author and journalist Ellin Bessner brings her new book "Double Threat" to the Scugog Shores Museum Village. As Canada and indeed, the world, marked the end of the fighting, hundreds of Canadian airmen and soldiers were still hard at work overseas with a new humanitarian mission: rescuing the survivors of the Holocaust, including in Germany at the site of the notorious Nazi death camp Bergen-Belsen. From the small gestures like donating red lipstick to the survivors to taking Jewish orphans on picnics, many Canadians in uniform spent the spring and summer after V-E day deeply involved in the rescue operations, plus in the tracking down of war criminals. Hear about some of the most famous Jewish Canadians who served, including Monty Hall, Wayne and Shuster, Sen. David Croll, Barney Danson, and more. Books will be available for sale and signing at the event. Admission is \$10.
