With compassion and unexpected humour, Mark Kunji Ikeda shares his discovery of where he came from, how his family navigated their histories, and how rampant racism of past generations has affected the Japanese community today. Concessions and cash bar available.

"Ikeda says more with the movement of his fingers than many actors do with reams of dialogue." ~Louis B. Hobson, Calgary Herald

Never has there been a more challenging time for employers to attract and retain employees and contractors. At the same time, we also continue to see a rise of litigation against employers.

To start off on the right foot, and to avoid potential litigation, it is of fundamental importance that your company enters into a written contract with all of its employees and contractors. A contract is able to properly confirm, establish, and limit employee obligations, including potentially limiting termination entitlements to a few weeks, instead of a few years.
