We create an inclusive, safe space where participants can learn more about themselves and others through the art-making process.

We recognize the value of small group sizes to maximize safety, individualization, and a high-quality art-making experience. Therefore, our program sizes are intentionally capped at lower numbers.

Running weekly from July 4th to August 26th, Monday to Friday.

We need to speak in spores

Date and Time: Saturday, August 27 12:00 pm - 2:00 pm

Address: 143 Simpson Avenue, Bowmanville, ON., L1C 2H9

We need to speak in spores is a collective exercise in attunement, empathy and collaboration where the public is invited to think like fungi. Taking place outside the Visual Arts Centre of Clarington (VAC), participants will be presented with an “event score” — a set of simple instructions that will prompt a series of group actions, meditations, and thought experiments to explore the emergent effects of encounter. Taking cues from fungi’s integral role in a forest’s health, such as facilitating interspecies communication and resource distribution, the participatory event will repurpose a selection of research papers, essay selections, news stories, poems, mythologies and will “compost” previous artistic elements from Sahara Te’s curatorial program *Incubator*, originally installed in the VAC Loft Gallery in fall 2021. Through a process of exchanged “assembled contaminations,” participants will discover and co-produce their own collective, attuned language.

** To participate in this event, no previous performance experience is required.*

Free screening: Saprotrophs

Date and Time: Saturday, August 27 2:00 pm - 4:00 pm

Address: 143 Simpson Avenue, Bowmanville, L1C 2H9

Saprotrophs is a hybrid screening and lecture event to be presented at the Visual Arts Centre of Clarington, focused on historicizing ideas of growth and decay, as they’ve evolved from the earth’s ancient ecologies to landscapes of industrialized capitalism. The event will open with a screening of artist Miles Rufelds’ 2019 essay film, *Two or Three Saprophytes*. Tonally pitched between Marxist ecological criticism and European Gothic horror, the film tells a hallucinatory narrative of mushrooms, chemicals, machines, and ghosts, contrasting a speculative history of the Industrial Revolution with a broader analysis of the earth’s patterns of growth, decomposition, and fossilization.

Following the screening, Rufelds will present a new piece of writing, expanding on themes brought up in the film, focusing specifically on contemporary questions surrounding the limits of capitalist growth, contested notions of “degrowth,” ecological activism, and labour agitation. The screening will be followed by a Q&A and open discussion with the audience.
