Date and Time: Tuesday, July 2 10:00 am - 4:00 pm

Address: Visual Arts Centre of Clarington, 143 Simpson Avenue, Bowmanville, Ontario, L1C 3K8

The Visual Arts Centre of Clarington is pleased to present a solo exhibition by Sameer Farooq.

The interdisciplinary practice of Sameer Farooq questions dominant institutional narratives in collections and museums. For over 15 years, Farooq has created community-based models of participation and knowledge production in order to re-imagine a material record of the present. Using museum display strategies as a medium, Farooq points to persistent absences in historical narratives, making buried histories more visible and offering counter-archives and new additions museum collections. Originally trained as a cultural anthropologist, he enlists the tools of installation, sculpture, photography, documentary filmmaking, writing and various anthropological methods to explore forms of collecting, interpreting, and display.

Farooq continues his exploration of institutional collecting strategies in Boop Museum. The exhibition comprises of de-accessioned objects from the Clarington Museum and Archives, who actively support and follow Ministry Guidelines and ethical museum practices with respect to collecting and de-accessioning objects. Working with a small portion of dolls, Farooq repurposes the de-accessioned objects to become part of a large-scale installation. The objects are displayed on museum furniture designed for people between 3 feet and 4 feet tall, creating a speculative museum made for children. On the last day of the exhibition, the children of the Clarington community are invited to the Visual Arts Centre of Clarington to “loot” the museum space created by Farooq. In keeping with his social practice, Farooq releases the objects back to the children, creating a community-based museum space while exploring the potential lives objects could have once they leave the historical archive.

(Trent University in Durham has also been a recent partner.) Cinechats was twice nominated for the region's Art of Transition Creative Award. Come see movies that will stir your emotions and make you think -- movies with award-caliber performances, movies for the artist in all of us. We've even had a world-premiere and some exclusive presentations of films before they were released commercially in North America. Come see movies that will stir your emotions and make you think -- movies with award-caliber performances, movies for the artist in all of us. We've even had a world-premiere and some exclusive presentations of films before they were released commercially in North America.
