---

Report #2023-WR-1 from J. Presta, Commissioner of Works, was received.

Detailed discussion ensued regarding terminating the proposed clear garbage bag pilot in the Municipality of Clarington as opposed to deferring the pilot until 2025 due to the significant waste management programming changes occurring in 2024; the lack of support from the residents of Durham for a clear garbage bag pilot; concerns that clear garbage bags would increase the amount of illegal dumping, and bags being left behind by the garbage collectors; and the significant cost to implement the pilot.

(16) That we recommend to Council:

That the implementation of a clear garbage bag pilot program in the Municipality of Clarington be terminated.

C) Organics Management Plan – Next Steps (2023-WR-3)

---

Report #2023-WR-3 from J. Presta, Commissioner of Works, was received.

Detailed discussion ensued regarding what the justification was of recommending a reduction of the garbage bag limit from 4 bags to 3 bags; the possibility of delaying the reduction of garbage bags until after the enhanced green big program has been established or the ability to re-visit this matter in the future; the increased materials that will be accepted in the green bin; and the details of the development of a green bin program for multi-residential buildings.

Moved by Councillor Marimpietri, Seconded by Councillor Mulcahy,  
(18) That we recommend to Council:

- A) That Regional Council approve the following requirements to implement the proposed organics management program:
  - i) Launch an Enhanced Green Bin that adds diapers, personal sanitary products, adult incontinence products, pet waste, pet litter, and any other material deemed processible by the Regional Municipality of Durham to the list of acceptable materials in the Regional Municipality of Durham's Green Bin program;
  - ii) With the reduction in garbage generation associated with Recommendation i) reduce the curbside garbage limit for the set out of garbage bags/cans from four (4) bags/cans every two weeks to three (3) bags/cans every two weeks with a communication and compliance plan providing appropriate resident education and support; and
  - iii) To accommodate the requirements of the Food and Organic Waste Policy Statement, Regional Council approve, in principle, the development of a Green Bin program for multi-residential buildings receiving Regional waste collection services;
